

Allowing pop-ups on iPad

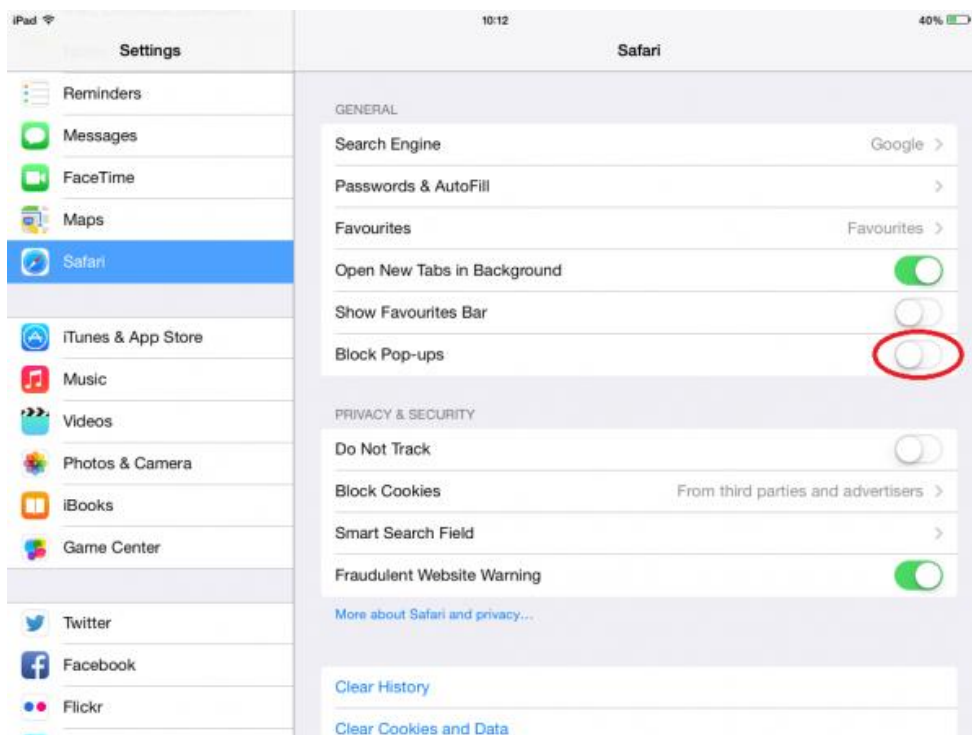

To enable pop-ups on iPad, select “Settings” on the main screen:

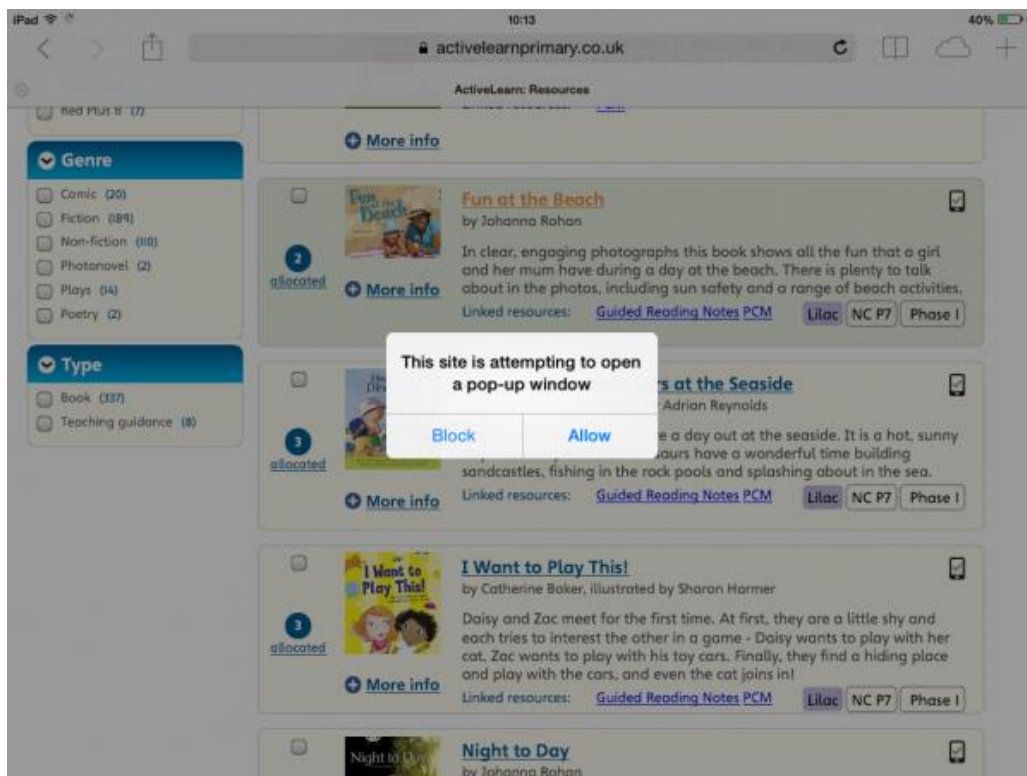

Scroll down the left-hand menu to “Safari” and select it:

Beside “Block pop-ups” on the right-hand part of the screen, there will be a switch. Drag this switch to the right. It should turn from green to white:

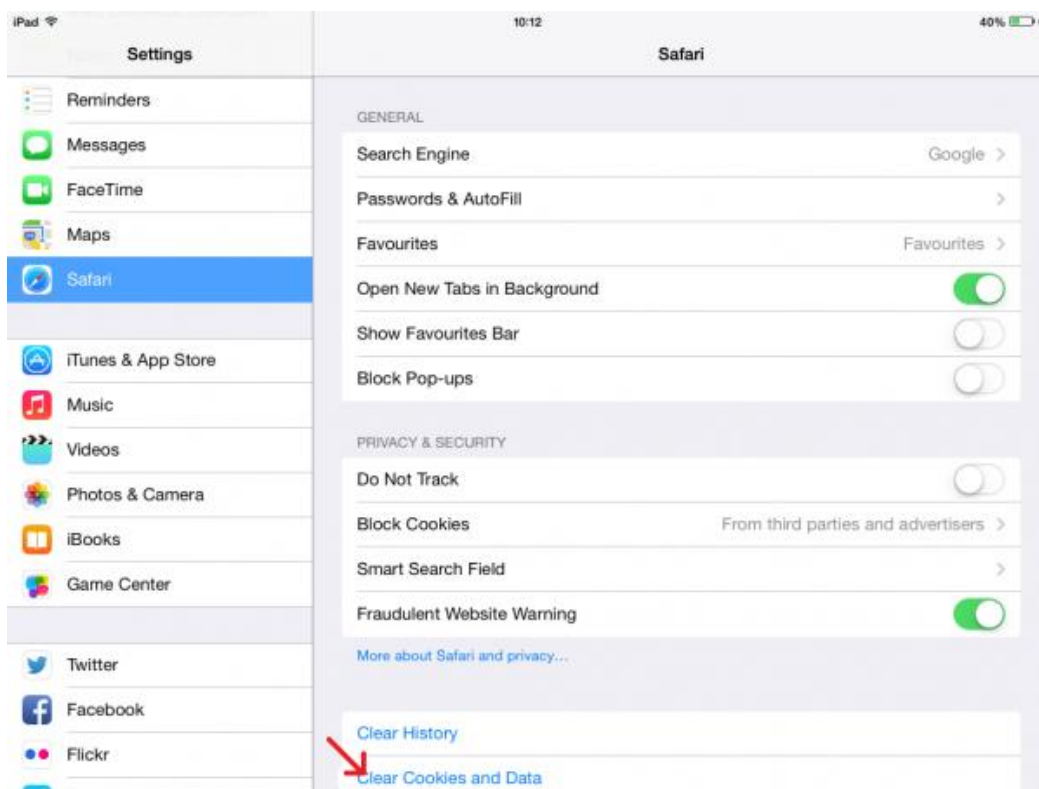

Even after you have enabled pop-ups in Safari, a prompt like this will appear when you try to open resources on an iPad:

Click “Allow” to allow the resource to open in a new window. If you click “Block”, you will not be able to view the resource.

If a pop up window does not appear, return to settings, croll down further to “Clear cookies and data”. Click “Clear” in the pop-up that appears:

If you continue to have problems after following these instructions, try restarting your iPad.
